HubSpot Auditor

Harbour Glass Co

This report uses a fictional sample portal. It is not a customer account.

Generated 2026-10-12T00:00:00.000Z

30

Score. Share of checks that are working. Confirmation is not a pass.

Working 14 Broken 21 Missing 11 Needs operator confirmation 0

Broken 21

Required properties filled

high lead routing crm.missing-required-properties

1 required property name(s) are below the fill ratio: email.

Fix: Make the thin properties required on the create forms and backfill the blanks.

Owner: RevOps. Retest: Agree which fields are required, backfill any field still under the ratio, and rerun the audit.

Workflow health

high lead routing email.workflows-health

1 workflow(s) are in error. 1 active workflow(s) have no enrolment.

Fix: Open the errored workflows and fix the failing action.

Owner: RevOps. Retest: Open each errored workflow, fix the failing action, and confirm a new test contact enrols.

Form field mapping

high lead routing forms.field-mapping

1 form field(s) have no property mapping.

Fix: Map each field to a contact or company property.

Owner: Marketing ops. Retest: Submit the form once and confirm each answer lands on the intended contact property.

Sync errors

high lead routing integrations.sync-errors

1 app(s) and 1 webhook(s) report sync errors.

Fix: Open the failing sync and replay or pause it.

Owner: Integration owner. Retest: Find the integration that created the bad row, correct that route, and rerun a ten-row import.

Email hooks by buyer stage

high lead routing journey.stage-hooks

6 journey stage(s) have no matching published email: lead, marketingqualifiedlead, salesqualifiedlead, opportunity, customer and 1 more.

Fix: Add one email or workflow for each uncovered stage.

Owner: Marketing ops. Retest: Move one test contact into each uncovered stage and confirm the matching email or workflow exists.

Stale deals

high lead routing pipelines.stale-deals

1 sampled deal(s) have not been updated for 30 days or more.

Fix: Create a workflow that tasks the owner when a deal goes stale.

Owner: Sales ops. Retest: Agree the stale-day threshold, let the task workflow fire on one quiet deal, and rerun the audit.

Lifecycle and lead status

medium lead routing crm.lifecycle-lead-status

1 contact(s) use a conflicting lifecycle stage and lead status.

Fix: Clear the conflicting lead status when lifecycle stage changes.

Owner: Sales ops. Retest: Agree the allowed lifecycle and lead-status pairs, clear any conflicting row, and rerun the audit.

Webhook subscriptions

medium lead routing integrations.webhook-subscriptions

1 webhook subscription(s) are inactive.

Fix: Repair or remove the inactive subscription.

Owner: Integration owner. Retest: Send one test event and confirm the subscription receives it.

GDPR consent on forms

critical consent forms.gdpr-consent

1 live form(s) have no GDPR consent field.

Fix: Add a consent checkbox and store the lawful basis.

Owner: Marketing ops. Retest: Submit the form and confirm the contact stores the consent checkbox and the lawful basis.

Cookie banner

high consent tracking.cookie-banner

The public page does not show a known cookie-banner marker.

Fix: Add a consent banner before non-essential HubSpot cookies load.

Owner: Marketing ops. Retest: Load the page in a fresh browser and confirm non-essential cookies wait for the banner.

Sender domain authentication

critical deliverability email.sender-authentication

1 sender domain(s) are missing a pass on SPF, DKIM, or DMARC.

Fix: Publish the missing DNS records before the next campaign.

Owner: Marketing ops. Retest: Query the sender domain and confirm SPF, DKIM, and DMARC each return a pass.

Spam protection

critical conversion forms.spam-protection

1 live form(s) have no captcha and no honeypot field: Demo request (on a public page, 12 submissions in 30 days). The forms API does not return HubSpot's honeypot toggle, so confirm that setting in the form editor if you use it.

Fix: Turn on captcha or add a honeypot field.

Owner: Marketing ops. Retest: Submit the form once as a person and confirm a bot-style submission is blocked or dropped.

Favicon on landing pages

medium conversion brand.favicon

1 published page(s) have no favicon.

Fix: Add a rel=icon link in the page head.

Owner: Marketing ops. Retest: Reload the page and confirm the browser tab shows the favicon.

Landing page titles and descriptions

medium conversion brand.page-meta

1 published landing page(s) are missing a title or meta description.

Fix: Fill the HTML title and meta description before the next campaign.

Owner: Marketing ops. Retest: View the page source and confirm the title and meta description match the offer.

Tracking code on the public site

critical reporting tracking.install-code

The public page HTML does not include the HubSpot tracking script.

Fix: Add the portal tracking code to the site layout.

Owner: Marketing ops. Retest: Load the public page and confirm the HubSpot tracking script request returns.

Tracking on landing pages

high reporting brand.page-tracking

1 published landing page(s) have no tracking script.

Fix: Add the portal tracking code to the landing page template.

Owner: Marketing ops. Retest: Load the landing page and confirm the tracking script request returns.

Original source attribution

high reporting tracking.original-source

Original source is missing on too many sampled contacts.

Fix: Stop blank imports from clearing original source.

Owner: Marketing ops. Retest: Import one new contact and confirm the import does not clear original source.

Deal stage probabilities

medium reporting pipelines.stage-probabilities

1 later deal stage(s) are below 40% probability.

Fix: Set a realistic probability on each open stage.

Owner: Sales ops. Retest: Agree the probability floor, set it on each open stage, and rerun the audit.

Campaign links on live assets

medium reporting program.campaigns

2 published page or email asset(s) have no campaign.

Fix: Attach each live asset to a campaign.

Owner: Marketing ops. Retest: Open each live asset and confirm it is attached to the campaign for that offer.

Duplicate companies

high data hygiene crm.duplicate-companies

1 domain(s) are shared by more than one company.

Fix: Merge companies that share a domain.

Owner: RevOps. Retest: Import two companies that share a domain and confirm they are blocked or merged.

Duplicate contacts

high data hygiene crm.duplicate-contacts

1 email address(es) are shared by more than one contact.

Fix: Merge the duplicate contacts and turn on a create-time duplicate rule.

Owner: RevOps. Retest: Import ten rows that repeat one email and confirm HubSpot does not create a second contact.

Missing 11

Required fields per stage

critical billing pipelines.required-fields

1 pipeline(s) have a stage that does not require the configured fields: amount.

Fix: Mark those properties required before a record can enter the stage.

Owner: Sales ops. Retest: Move a test deal into the stage with the field blank and confirm HubSpot blocks the move.

Nurture sequence

medium lead routing email.nurture-sequence

No active nurture sequence was found.

Fix: Add one short nurture for new leads.

Owner: Marketing ops. Retest: Enrol one new lead and confirm the nurture sends, then stops when the contact becomes a customer.

Automation on stage change

medium lead routing pipelines.stage-automation

1 pipeline(s) have no stage-change automation.

Fix: Add a workflow or stage action for the first handoff stage.

Owner: RevOps. Retest: Move one test deal into the handoff stage and confirm the workflow enrols that deal.

Dynamic lists

medium lead routing program.dynamic-lists

No dynamic list was returned.

Fix: Build dynamic lists for the stages you email.

Owner: Marketing ops. Retest: Change one contact's lifecycle stage and confirm the dynamic list gains or loses that contact.

Lead score

medium lead routing program.lead-score

No lead-score property was returned.

Fix: Turn on predictive lead scoring or name your score property in the YAML.

Owner: RevOps. Retest: Open a scored contact and confirm the score property has a current value.

Unengaged contacts

medium deliverability email.unengaged-handling

No workflow handles unengaged contacts.

Fix: Add a sunset workflow after a set number of unopened emails.

Owner: Marketing ops. Retest: Mark one test contact unengaged and confirm the sunset workflow suppresses further sends.

Follow-up email

medium conversion forms.follow-up-email

1 embedded form(s) have no follow-up email.

Fix: Add a follow-up email or a workflow enrolment on submit.

Owner: Marketing ops. Retest: Submit the embedded form from an inbox you control and confirm the follow-up arrives.

Unused forms

low conversion forms.unused-forms

1 live form(s) are not embedded.

Fix: Embed the form or archive it.

Owner: Marketing ops. Retest: Archive each unembedded form or place it on a page, then rerun the audit.

Attribution reports

medium reporting reporting.attribution

No attribution report was returned.

Fix: Add an attribution report for paid and organic channels.

Owner: Marketing ops. Retest: Open the attribution report and confirm paid and organic channels both appear.

UTM capture

medium reporting tracking.utm-capture

UTM properties exist but most sampled values are empty.

Fix: Pass UTM parameters into hidden form fields.

Owner: Marketing ops. Retest: Open the form with utm_source set and confirm the hidden field stores that value.

Unused custom properties

low data hygiene crm.unused-custom-properties

1 custom property name(s) have no values: favourite_glass.

Fix: Archive unused properties or start collecting them on a form.

Owner: RevOps. Retest: Archive each named property or place it on a form, then rerun and confirm the fill count is no longer zero.

Needs operator confirmation 0

None.

Working 14

Record owners
medium lead routing program.owners
1 owner record(s) are present.
Fix: Give every new contact and deal an owner.

Subscription type on published emails
high deliverability email.subscription-coverage
Published emails are tied to a subscription type.
Fix: Keep one subscription type per email.

Email subscription types
high deliverability program.subscription-types
1 subscription type(s) are defined.
Fix: Map each marketing email to one subscription type.

Logo on landing pages
high conversion brand.logo
Published pages include a logo image or SVG.
Fix: Put the logo in the shared page header.

Landing page call to action
high conversion brand.page-cta
Published landing pages include a call to action.
Fix: Point the action at one form or one meeting link.

Published landing pages
high conversion brand.published-pages
1 landing page(s) are published.
Fix: Keep a draft only while it is still being edited.

Live forms
high conversion forms.live-forms
2 form(s) are not archived.
Fix: Archive forms that no page still embeds.

Landing page colour palette
medium conversion brand.colours
Published pages use a stylesheet or a small colour set.
Fix: Keep new pages on that palette.

Page heading
medium conversion brand.heading
Published pages include a level-one heading.
Fix: Give each landing page one h1.

Extra brand phrases
low conversion brand.markers
No extra phrases are configured. Logo, favicon, heading, and colour checks still run.
Fix: Add params.markers only for words that must appear verbatim.

Lifecycle funnel
high reporting reporting.lifecycle-funnel
The contact sample spans 4 lifecycle stages.
Fix: Use the same stage names on the funnel report.

Dashboards
medium reporting reporting.dashboards
1 dashboard(s) are present.
Fix: Keep one operating dashboard for the revenue team.

Ticket pipeline

low reporting pipelines.ticket-pipeline

1 ticket pipeline(s) are defined.

Fix: Keep a closed stage and a required resolution field.

Connected apps

low data hygiene integrations.connected-apps

1 app(s) are connected.

Fix: Remove apps you no longer use.
